WATER

An abundance of the best deep well water for all purposes. Analyzed and pronounced an excellent drinking water. Customers for domestic purposes especially desired. No back-breaking pumps or windlasses---press the button and the water flows.

LIGHT

The safest, the cleanest, the most convenient, the best light known. Let us tell you how many dollars and cents it will take to put Electric Lights in your residence or place of business. It will cost you nothing to know. We can give you any convenience in arrangement, any style of Electrolier, Shade or Fixtures, of any kind that is made. We are anxious to tell you anything you wish to know on the subject.

POWER

Let us talk with you about furnishing you the best power at the cheapest price you can get, to run your machinery. We run anything from a sewing machine to the largest cotton mills. The power for small industries. Your motors can be located anywhere without any special provision for them. The best motors, made for sale, at the lowest prices obtainable.

PREFACE

We herewith present our third volume of the Anderson Directory, and it is with considerable pleasure that we are able to state that during the period since the publication of last Directory (May, 1907) Anderson has made marked strides in every particular—in fact, is thoroughly abreast the times and improving with every day.

In preparing the last Directory the Census of the territory as covered by us was 14,006, and within the confines of same area there is to-day a population (as indicated by the number of names taken on canvass) of 15,557, an increase of over 10 per cent.

The City has advanced well along all lines and continues its remarkable strides in building, a house being completed on an average for every working day, and the class of buildings have improved materially, which adds greatly to the appearance of the City.

As usual with us we use in the preparation of this work the services of trained directory enumerators, and the information is dependable.

In conclusion we extend our thanks for many courtesies received by our representatives in the gathering of statistics necessary, and to our patrons for their support, promising on our part to render the best service possible with each issue.

Respectfully,

THE WALSH DIRECTORY CO.,

W. H. WALSH, PREST.

STREET DEPARTMENT

WALSH'S

Anderson, S. C., Directory

FOR 1909-1910

EXPLANATION.

Reference to this department will show streets alphabetically arranged regardless of their location.

All names in Street Directory denote heads of houses.

By the decimal system of numbering, one hundred numbers are allotted to each block. Main Street is the dividing line between eastern and western sections of city, and Whitner Street is the dividing line between northern and southern sections.

* Denotes a place of business.

For names other than shown in this Department, see General Directory of Names.

Pine Forest Inn

Season 1909-'10  Open December
to May
Summerville, S. C.

The Pine Forest Inn Company take pleasure in announcing to former patrons and those who contemplate a sojourn in the South during the Winter 1909-10 that the Inn will open for the coming season with many improvements to the hotel and property that cannot fail to add to the comfort of its guests. The new additions, containing several suites of rooms with bath, steam heat and open fireplaces, are furnished in the luxurious style of other portions of the Inn. An extension enlarges the dining room to double its former size, and provides several smaller dining rooms and a commodious room for balls and entertainments. The kitchen facilities are also improved.

The Former Excellent Golf Links have been extended to an eighteen-hole course. Artificial bunkers have been added, and the hazards difficult enough to be interesting. The turf is the finest in the South. There is a good club-house situated at the first tree, commanding a view of the entire course. The links will be in charge of a professional instructor, and tournaments will be a feature during the season. The climate of Summerville will admit of playing any day in Winter. A fine boulevard leads from the Inn through the park and past the tea and floral gardens of Dr. Charles U. Shepard to the club-house, less than a mile distant.

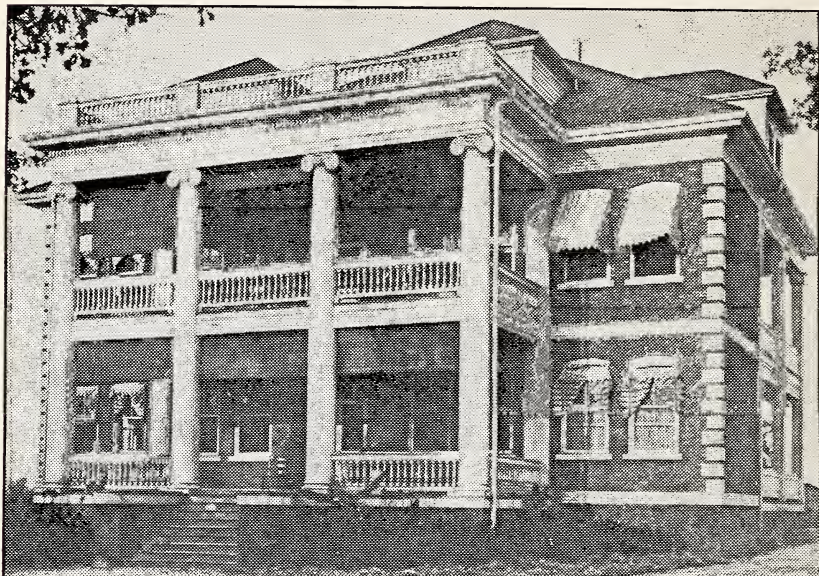

The Pine Forest Inn Hunting Grounds containing two thousand acres, with its Colonial Club House, and the variety of game with which the preserves are stocked, should be a great attraction for all fond of hunting, etc.

The Owners of the Inn have spared no expense in the equipment of the hotel and providing for the comfort and amusement of guests, and the large patronage enjoyed by the house in past seasons is the best evidence of its popularity. Situated in the middle South, in the dry, fragrant air of the pines, and easy of access from all points, the Pine Forest Inn offers an ideal climate and many advantages not found at other Southern resorts.

Distinctive Printing

PRINTING is the Ambassador of Trade, it is sent out to acquaint customers with your business, it goes where you cannot be, it tells the story you would have told had you been able to go in its stead, it is the means by which you hope to attract attention to your house, to interest the public and to secure patronage, if at all possible. ¶ In order to achieve these results and secure adequate returns for the money invested, it is absolutely necessary that all your printed matter have distinctive qualities. ¶ Ordinary printing is forgettable printing, distinctive printing impresses itself upon the mind and brings results.
